

CHAPTER 8

CONCLUSION

The Environmental Management Plan (EMP) for the proposed “*Cadangan Pembangunan Ladang Hutan Seluas 400 Hektar (988.42 Ekar) di Sebahagian Kompartment 78 & 79 Hutan Simpan Bukit Slim, Mukim Slim, Daerah Muallim, Perak Darul Ridzuan*” has been prepared to full fill the terms and conditions of the relevant regulatory requirements. It has been prepared to assist in facilitating planning, control, monitoring and enforcement by DOE in ensuring that all conditions have been complied with when the plan is implemented.

The implementation of this EMP will be the responsibility of **Liput Raya Sdn Bhd** providing a measure of their compliance with the Environmental Requirements. **Liput Raya Sdn Bhd** should ensure the adequacy of the design of environmental controls and the ability of the surrounding infrastructure to cope with any additional loading.
